## THE APPARENT MOTION OF THE PLANETS AROUND THE EARTH

**£750.00**

Motus Planetarum Superiorem...

**Cartographer** DOPPELMAYR, Johann Gabriel.

**Date** 1742

**Stock #:** 24887

**Publication:** Nuremberg, Homann, c.1742. Original colour. 480 x 570mm.

**Condition:** Split in lower centre fold repaired.

### DESCRIPTION:

A fascinating astronomy plate showing the apparent paths of the major planets as if they revolved around Earth rather than the Sun, Mars taking two years, Saturn twenty-nine. Seven cherubs represent the bodies of the solar system.

From Doppelmayr's 'Atlas coelestis in quo mundus spectabilis et in eodem.'
