DECORATIVE CHART OF THE SOLAR SYSTEM

£1,500.00

Systema Solare et Planetarium ex hypothesi Copernicana...

Cartographer	DOPPELMAYR, Johann Gabriel.
Date	1742
Stock #:	24883
Publication:	Nuremberg, Homann, 1742. Original colour.
Condition:	Split in lower centre fold repaired.

DESCRIPTION:

Very decorative celestial chart of the Solar System according to Copernicus, with the orbits of the six known planets and their satellites, and a final ring with the signs of the Zodiac. The top left is a depiction of the relative sizes of the Sun and planets; bottom left a diagram showing where upon the globe the 1706 solar eclipse fell.

From Doppelmayr's 'Atlas coelestis in quo mundus spectabilis et in eodem.'
